NURTURE WEEK 2019
20 - 24 May

Next week we are celebrating nurture week with lots of different activities.

We plan to introduce a new morning greeting with our classes.

Each class will post a video next week of nurture activities going on. We will begin with Move It Mondaythen Talk it Out Tuesday, Wellness Wednesday, Thankful Thursday and Feel Good Friday.

Junior Enterprise

P6/7 are very excited about their sales event for their shared education mini enterprise project at New Row PS on Monday 3rd June between 1:45 and 2:45pm.

Following the Dragons Den where they pitched their business ideas to a panel of local business people the two winning products were decided upon as Welly Wishes (decorated wellies with plants/flowers) and Jazzy Jars (decorative glass jars with little treats inside (sweets/toiletries etc.)

They are looking forward to making these and preparing for the sale and will enjoy using their profits for their celebration day in June where they have an ice cream van and lots of fun activities planned.

They are collecting old wellies and glass jars and will be grateful for any donations to help with this.

ETI Visit

We had very positive feedback from ETI during our visit last week. The inspector felt our safeguarding procedures were 'airtight' with all policies, procedures, risk assessments and practice being lived out daily. He thought our school building looked great...in great condition and very inviting with stimulating classrooms and displays. He commented on our caring and nurturing ethos.... he felt welcome as soon as he arrived with his greeting at the door by some pupils.

He randomly chose some P6 pupils to chat to about their experiences on all aspects of school life. He said they were 'fabulous' and commented on how proud they were of their school, how much they loved their school and the wonderful experiences and opportunities they were exposed to. He cross referenced all our policies and procedures with the children and they talked knowledgeably about all aspects of school.

Th inspector walked round the school and classrooms and could see learning taking place with very engaged children. He was very impressed with everything going on in school and said he 'loved' his day with us.
